

Kompact

Solenoid driven dosing pumps

Kompact is a simple and reliable range of micro-processor based wall mounted solenoid driven dosing pump. The range has been designed to provide a general solution to the most commonly found daily needs. The range features both constant and proportional flow rates managed through a manually adjustable control dial on the front panel.

- Capacity range: 5 l/h at 8 bar or 3 l/h at 10 bar
- Wetted parts: PVDF-T, PTFE, EPDM, FPM and Ceramic
- Analogue and digital range with constant or proportional dosage

Kompact, even in its basic variant, uses premium materials in its manufacture. The **pump head** comes as **standard in PVDF-T**, but can be **optionally specified in natural PVDF** and comes with a **ceramic ball valve** as standard improving the **reliability of the pump over time** and offers **chemical compatibility of the wetted parts**. SEKO's diaphragms are made of pure solid PTFE offering a superior life expectancy **guaranteed by SEKO for 5 years**, making routine replacement no longer necessary.

Some variants come with a **Stabilized Multi Power Supply 100 - 240 Vac 50/60 Hz** offering **reduced energy consumption**. The solenoid only draws the required power to activate the pump, based on the working conditions which brings improved **pump efficiency** as performance is not affected by **power supply fluctuations**.

The range also features

- Power-ON led indicator
- Multi colour LED status system
- Level control input
- Timed dosing with a weekly programmable timer
- Dosage in ppm, dosage batch
- Statistics
- Password protection for digital models
- Input ON-OFF (remote control)
